AviationContentCreators@gmail.com

The following pages contain the data summary for the 2021 ACCA awards period.  
**July 1, 2020 - June 30, 2021**

A total of 6,122 individual Aviation videos received 306,653,984 Views between July 1, 2020 and June 30, 2021.

These videos were analyzed and added to an excel database. A summary of that data as well as data for each individual channel is enclosed with this PDF. The following top eight overall ranking CATEGORIES were generated by the data. The summary as well as each channels individual workbook page is included with this PDF document.

YouTube Data harvested by Cody Ibanez, owner @ BoothKicker Technologies, Inc.

COUNTY AIRPORT

— THE 2021 —  
**ACCA'S**  
**JULY 23-25, 2021**

## July 23, 2021 \*\*\*\*ALL ABOUT ACCA's!

Welcome to the Second Annual Aviation Content Creator Awards, Airshow, and Fly-in! This event has grown out of the ever evolving information migration from print to electronic modes. The days of traditional print-based aviation content are mostly over, and the age of user directed content has appeared. Social Media is now the number one method of instant aviation information dissemination! In the Social Media world, the YouTube platform is currently the number one method of "How to", educational, humorous, and entertaining content. From the ashes of countless print-based media now long gone, individual aviators have risen to fame, stardom, and financial reward in exchange for producing excellent video content. The amazing part of the entire concept is that content creators are actually "scored" by the entire world as an audience for films uploaded. This is done by viewers that vote and comment in real time as they come across them. In 2020, the idea was born that there should be a mathematical method to harvest data from each aviation content creator, and score it on some equal basis, where successful creators could be rewarded, and the others could see clear examples of what to change. The first annual ACCA's were held in Kansas in July of 2020 with approximately 30 YouTubers in attendance. It was the first year that data was harvested from the 30 attending channels in the ACCA 12-month collection period. The resulting data was dropped into an Excel spreadsheet and the numbers were crunched. Awards for first and second place were given out in 7 different categories, as well as an overall AVIATION CONTENT CREATOR OF THE YEAR award. In 2021, the data harvest process was much larger and was streamlined via API plug-ins that electronically harvested data from 150 YouTube channels at the same time. More than 7,000 videos were scored and ranked this ACCA period year, the results posted on the ACCA web site on the morning after the awards.

So it's all about getting better aviation content by seeing what we did wrong. Or, what will work based on what did not work. The data uses mathematical formulas to track and create a Qm, or quality Metric that scores each individual video from each content creator. The math is applied equally to all channels and all videos. It's a lot of work! See the Free results PDF on the web site.

But ACCA's are not just for the awards! It's a Fly-in and fun time. It's an Airshow and a Fun Run down the runway. It's content Creators collaborating and sharing ideas. It's a great chance to bolster the local economy by featuring the locals, and buying their local products where possible. We hope that this event grows annually at Whiteside County and that it becomes a very large annual tourist attraction for the area! We hope that you will welcome the 50 plus Aviation YouTubers that travelled to the Rock Falls area this year for the Whiteside County ACCA's, and let them know that you will see them next year right here!

This was our first year at Whiteside County Airport and we recognize that it might have had a few shortcomings, but we want you to know that we appreciate your patience and support during this massive learning curve and our efforts to secure this as an annual event at this Airport. Thanks to everyone that supported, donated, sponsored, volunteered, and attended this year!

Sincerely,

The Whiteside County ACCA's Steering Committee
